

Consent Decree Update Online Community Forum

Consumer Council System of Maine
A Voice for Consumers of Mental Health Services

We invite the peer community to come learn about changes to Maine's Consent Decree. This affects everyone using adult mental health services in Maine not just consent decree members.

This forum is meant for peers/consumers. Others are welcome to attend and listen.

Disability Rights Maine and CCSM will talk about the details of the current agreement and how this will affect the peer community. Time will be given for questions.

All Forums to be Held Online Via Zoom

Video and/or Phone Conferencing

Meeting ID: 8938611710

No Password Required!

The CCSM is a mental health advocacy organization mandated by legislation as a voice for individuals who receive mental health services. We work to affect public policy change and address statewide and local issues affecting those receiving mental health services.

Funding is provided by:

The Maine Department of Health & Human Services
